

BLOODPAC at Five Years

Presented by: Lauren Leiman, Executive Director, BLOODPAC

Our Mission

Our mission is to accelerate the development, validation and accessibility of liquid biopsy assays to improve the outcomes of patients with cancer.

THE CHALLENGE

The promise of liquid biopsy technology would be slow to reach patients without trust in the development and performance of these technologies.

BLOODPAC GOAL

Develop shared frameworks and aggregate supporting data that promote confidence in liquid biopsy technologies leading to subsequent accelerated clinical adoption.
